eManagers: Small Business Technology Buyers

eManagers are information technology buyers at small businesses and are confirmed credit card purchasers.

DESCRIPTION

eManagers are responsive credit-card holding information technology buyers at small businesses. Marigold's proprietary web indexing system identifies a rare and unique source of business contacts that have set up shop on the Internet. Very often an entrepreneur will register a domain name long before they incorporate a business, it is at this critical moment that you can target eManagers before the major compilers even know they exist. Marketers of Information Technology, Computer hardware and software, Telecommunications, and Business-related products, services, and publications can reach new names through four points of contact information: postal mail and telephone number for initial campaign; fax number and email address for follow-up multi-channel solicitation. Our turnkey list fulfillment system allows for accommodation of your rush orders. The eManagers list is a powerful source of correct, deliverable, and recent prospecting data.

eManagers: SOHO Technology Buyers

eManagers SOHO are information technology buyers at small offices and home offices and are confirmed credit card purchasers.

DESCRIPTION

eManagers SOHO is a unique file of credit-card holding technology buyers. Marigold's proprietary web indexing system identifies a rare source of unprospected names. eManagers SOHO are tech savvy people who run small businesses and home offices from their residential address. They have registered a domain name, make payments online, have high-speed Internet, they live in residential neighborhoods, and they registered the domain in their business name, not their given personal name. Marketers looking to tap into the fastest growing US business demographic can reach new names through four points of contact information (direct mail and telephone number for initial campaign; fax number and email address for follow-up multi-channel solicitation. Our turnkey list fulfillment system allows for accommodation of your rush orders. The eManagers list is a powerful source of correct, deliverable, and recent prospecting data.
